Cielo Vista Charter recognizes that families may not always evenly distribute students’ work assignments over weekdays. However, due to state law requirements for charter school attendance, Cielo Vista Charter expects each student to be engaged in educational activities required of them in their assignments on each weekday that Cielo Vista Charter is in session, and asks that this “daily engagement” be documented on a daily basis in this log by the parent/guardian/caregiver. This should not be read to prohibit school work on weekends and is not meant to dictate the manner in which a family distributes the assignments over the Independent Study period. Cielo Vista asks that a parent/guardian/caregiver refrain from documenting any “daily engagement” on a day when a student does not engage in any educational activity required of them by the assignments. By law, work done on weekends or other days when school is not in session cannot be used to “make up” weekdays when no “daily engagement” occurred. This form along with the work, is to be turned in on the scheduled day of return.

With my signature below, I understand by signing and completing this log that this student was actively engaged in instructional activities required by the school on the school days Cielo Vista Charter was in session.
